INTERIOR DESIGN - CORPORATE

"As one of Australia's largest and privately owned companies, our reputation for excellence in commercial and residential property required our new office to be a showpiece for the group. Located in our own Green Star rated development, the tenancy offers stunning panoramic views of the Swan River to Kings Park.

The result is a contemporary, yet personal space that reflected our ideals of environmental sensitivity and superior levels of quality and design. Clients and staff alike are impressed with the finished result that came at the end of a very long and detailed process of base building integration. We found Trojan Horse Interiors responsive to the many stakeholders associated with the project and extremely diligent in the performance of their commission.

We feel we now have a distinctive point of difference which assists us in demonstrating our abilities to provide the best real estate development opportunities."
