

CARNARVON PETROLEUM

2ND FLOOR, 76 KINGS PARK ROAD, WEST PERTH

TROJAN HORSE
INTERIORS

SIMPLE SOLUTIONS
for
COMMERCIAL
SPACES

"The team at Trojan Horse Interiors turned what I had anticipated as a daunting task into a very manageable and achievable project.

From conceptual design through to final documentation and implementation, the project was seamless with the team at Trojan Horse interiors being very accommodating to variation and only too willing to assist.

This ensured that Carnarvon Petroleum received the desired workspace, on time and on budget, making the outcome a joy to be involved in.

We are all really pleased with our new office space, which is a true pleasure to work in, and once again I would like to say thanks for all your assistance in turning our space into a clean, modern and collaborative environment.

I put my trust in the Trojan team and would not hesitate to do the same again."

Graham Chapman, Business Manager
