"This co-operative is one of Australia's largest exporters of quality lamb, with over 35 years of experience servicing the world's markets as a trustworthy, reliable and efficient supplier of Western Australian product.

It was important that this head office tenancy, created in a brand new building in East Perth, was able to reflect where the group had come from, and where they are now headed. With a conservative membership base, the layout and finishes selected were to have a familiar feel while still projecting the image of a leader in the field.

Spatially, a modern, functional interior was created by the use of full height office and meeting spaces intertwined with open workstation clusters.

Natural blond horizontal grained timbers used on furniture items and feature walls throughout add colour and warmth while a floor to ceiling wall mural features a scene very familiar to the groups shareholders in the farmed meat industry."
