

JOEST AUSTRALIA

70 - 72 SHEFFIELD ROAD, WELSHPOOL WA 6106

TROJAN HORSE
INTERIORS

SIMPLE SOLUTIONS
for
COMMERCIAL
SPACES

"Trojan Horse were approached to transform a dull and boring Welshpool office layout, into a spacious, efficient and inspiring working environment. The introduction of a staircase to access the upper level from reception, was nothing less than brilliant, and is now the centre piece visitors see upon entering our offices. This projects a professional image, to match our high quality products and services.

Trojan Horse took all the hassle out of renovations, and allowed our team to focus on the day to day business. Their careful approach to compliance, standards and building regulations, allowed the management team to get on with business.

Innovative design, clever use of screens with JOEST themes add to the bespoke result. JOEST now has a comfortable and inspiring environment for our team to excel in supporting our products and services.

We are so pleased with the finished product, we would highly recommend Trojan Horse to anyone looking for a superior fit out."

Ian Laws
