

"Proposed changes to this established accounting practice meant it was time to make their office tenancy match their new direction. Initially, the tenant thought they would need to relocate to larger premises however through clever space planning, Trojan Horse Interiors were able to achieve their goals within their existing space.

Off reception are two interleaving meeting rooms of a practical size that open up and are combined via an operable wall. Creating a modern feel with feature timber pendants, casual meeting spaces and an internal meeting room that can be accessed by both visitors and team members alike.

The existing majority of solid partitioning was removed and new full height glass offices and workstations were installed. Screen heights have been set low to allow maximum light to flow into the back of the tenancy and this has enabled additional team members to be integrated into the space while still creating a spacious feel. "
